

BOICT Awards Recognizes FPG Technologies & Solutions Limited's Continuous Innovation In Cyber Security And Business Excellence

FPG Technologies & Solutions Limited, one of Nigeria's foremost IT Companies known for providing Mobile, Cloud, Infrastructure and IT Security solutions to various sectors of the Nigerian economy, is pleased to announce that it was awarded 2019 BOICT Award for Cyber Security Company of the Year award during the recent annual award ceremony held in Nigeria by Communications Media Limited, Publishers of Nigeria Communications Week, a leading Nigeria's ICT Magazine.

The BOICT awards distinguishes organisation's and individual's contribution to ICT advancement in Nigeria and is considered by experts as the most significant ICT award held in Nigeria.

FPG Technologies and Solutions Limited is an IT systems integrator, providing innovative cutting-edge information technology solutions and services to enable organizations accelerate their business agility with confidence.

Receiving the award, Alex Ogbalu, Business Development Manager stated "It is a great honour to receive this award", This is an acknowledgment of the excellence and versatility of all the talented and committed people—both the wonderful team at FPG who deliver world-class solutions, the many dedicated and astute clients and OEM partners we work with, and our strong focus on IT Security innovation and technology.

FPG CEO, Rex Mafiana asserted "This award is indicative of FPG's dedication to providing customers with the most innovative and technology-advanced IT security solutions.

In March 2019 there was a publication in the vanguard newspaper stating that 'in 2018 alone, about 60 per cent of Nigerian firms suffered cyber-attacks, 43 per cent of these attacks were targeted at small and medium enterprises (SME's). Based on these statistics we can conclude Nigeria bore a greater percentage of over \$1 trillion loss to cyber-attacks in 2018. This number will increase in 2019, therefore it is pertinent for IT Security to be principal for every organisation regardless of size or focus. We are committed to helping organizations make better decisions to reduce IT Security risk.

Our revolutionary solution FlexSecure provides a comprehensive end to end Security for business from their web presence to their minutest Data. FlexSecure guarantees security for priority assets including security gateways, users, data, applications, systems, mobility, web, online presence and fraud. It provides total, modular and scalable Security for the Enterprise thereby allowing for business continuity without negatively affecting User experience.

"We are honoured for the recognition that we have received from BOICT Awards and Winning BOICT Awards third year in a row is a great accomplishment for the FPG team. We are proud to be helping organizations in Nigeria and Africa deliver extreme business agility with assured confidence. This recognition further validates our commitment to this vision"
